

House Health Care Bill Gets It Right

Soon Congress will merge separate health care bills from the House and Senate. CWA strongly supports the House bill. It would:

- Finance reform by making the wealthy pay their fair share — NOT by taxing our health benefits
- Let us keep the health plan we have — and strengthen it
- Require most employers to provide coverage

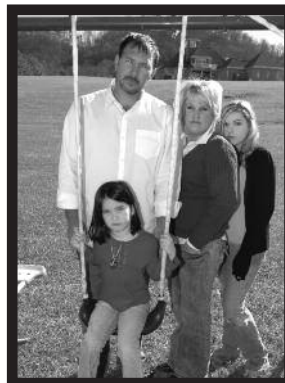

The Senate bill will tax our health care benefits. It also does not require employers to provide coverage.

We need to be sure the House bill — not the Senate bill — becomes the FINAL BILL.
